

**SHERJAN MUSAKHAIL &
SONS CONSTRUCTIONS**

THE SMS **LEGACY**

*Building Pakistan's Infrastructure
Since 1986*

Sherjan Mosakhail & Sons (SMS) has been transforming Pakistan's infrastructure landscape for over 35 years. From national highways and bridges to institutional buildings, water networks, and renewable energy projects, SMS has consistently delivered projects that meet global standards of precision, quality, and safety.

Founded by Mr. Sher Jan, SMS has grown from a civil works contractor into a full EPC + Turnkey provider, capable of delivering complex infrastructure from concept to commissioning. Today, under the leadership of Mirza Khan, SMS continues to deliver impactful infrastructure across Pakistan, the GCC, and Central Asia.

OUR GUIDING PHILOSOPHY

Our Blueprint for Excellence

OUR MISSION

To deliver world-class infrastructure through disciplined EPC execution, innovative engineering, and uncompromising commitment to quality, safety, and client trust.

OUR VISION

To be Pakistan's premier EPC contractor — delivering future-ready infrastructure, expanding across the GCC and Central Asia, and shaping communities through sustainable, high-performance engineering.

CORE VALUES

The Pillars That Define Us

1. Integrity First

We build trust before we build structures — transparency guides every decision.

2. Quality Without Compromise

ISO 9001-certified processes ensure every project meets the highest global standards.

3. Safety as a Culture

Following ISO 45001 standards, we embed Zero Harm practices across all sites.

4. Innovation in Action

From BIM/3D coordination to advanced hydrological modelling, we use modern tools to enhance performance.

A MESSAGE FROM THE **FOUNDER**

A Commitment Forged in Experience

When I founded SMS in 1986, my goal was simple: build with quality, honor commitments, and deliver infrastructure that strengthens Pakistan's future. Today, seeing SMS evolve into a full EPC + Turnkey contractor makes me immensely proud.

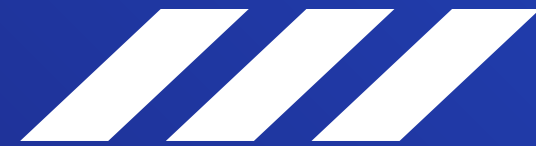

Our success is built on long-lasting relationships, fair pricing, technical excellence, and a dedication to improving communities. As we expand beyond Pakistan into the GCC and Central Asia, our values remain unchanged — reliability, quality, and integrity.

MESSAGE FROM THE CEO

Building Beyond Borders

“As we expand regionally, SMS is evolving into a globally capable EPC contractor. Our in-house engineering, robust procurement systems, and disciplined execution enable us to deliver complex, fast-track, and large-scale projects with complete accountability.

Our goal is not only to build infrastructure — but to build partnerships, reliability, and long-term value.”

QUICK STATS

Our Impact in Numbers

- 35+ Years of EPC & Infrastructure Delivery
- 100+ Major Projects Completed
- PEC Category CA (No Limit)
- ISO 9001 & ISO 45001 Certified
- Expanding to GCC & Central Asia
- 70+ Skilled Professionals

HOW WE **DELIVER**

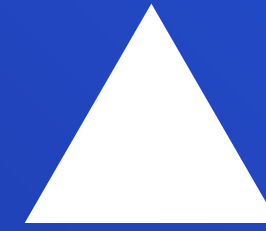

A Fully Integrated Delivery Framework

SMS delivers projects through a seamless **EPC framework**, giving clients single-point responsibility from early design to commissioning.

Our EPC Strengths

- In-house engineering
- Controlled procurement
- Disciplined, safety-led construction
- End-to-end QA/QC
- Full commissioning & asset handover

ENGINEERING & DESIGN

Precision Built Infrastructure

Concept & Feasibility Studies

- Detailed engineering + IFC drawings
- Structural design & rebar detailing
- Hydraulic & hydrological modelling
- Geotechnical & pavement design
- BIM / 3D coordination & clash resolution
- Value engineering & constructability reviews

PROCUREMENT & SUPPLY CHAIN

Procurement Engineered for Reliability

Core Capabilities:

- Local & international sourcing
- Vendor prequalification & inspections
- Factory Acceptance Testing (FAT)
- Logistics, warehousing & tracking
- Long-lead item management
- Full QA/QC compliance documentation

CONSTRUCTION & EXECUTION

Building with Strength, Safety & Speed

Core Capabilities:

- Heavy civil & structural works
- EPC integration with MEP & utilities
- Live-traffic & urban construction
- In-house self-performance workforce
- HSE-led site supervision
- QA/QC embedded at every stage

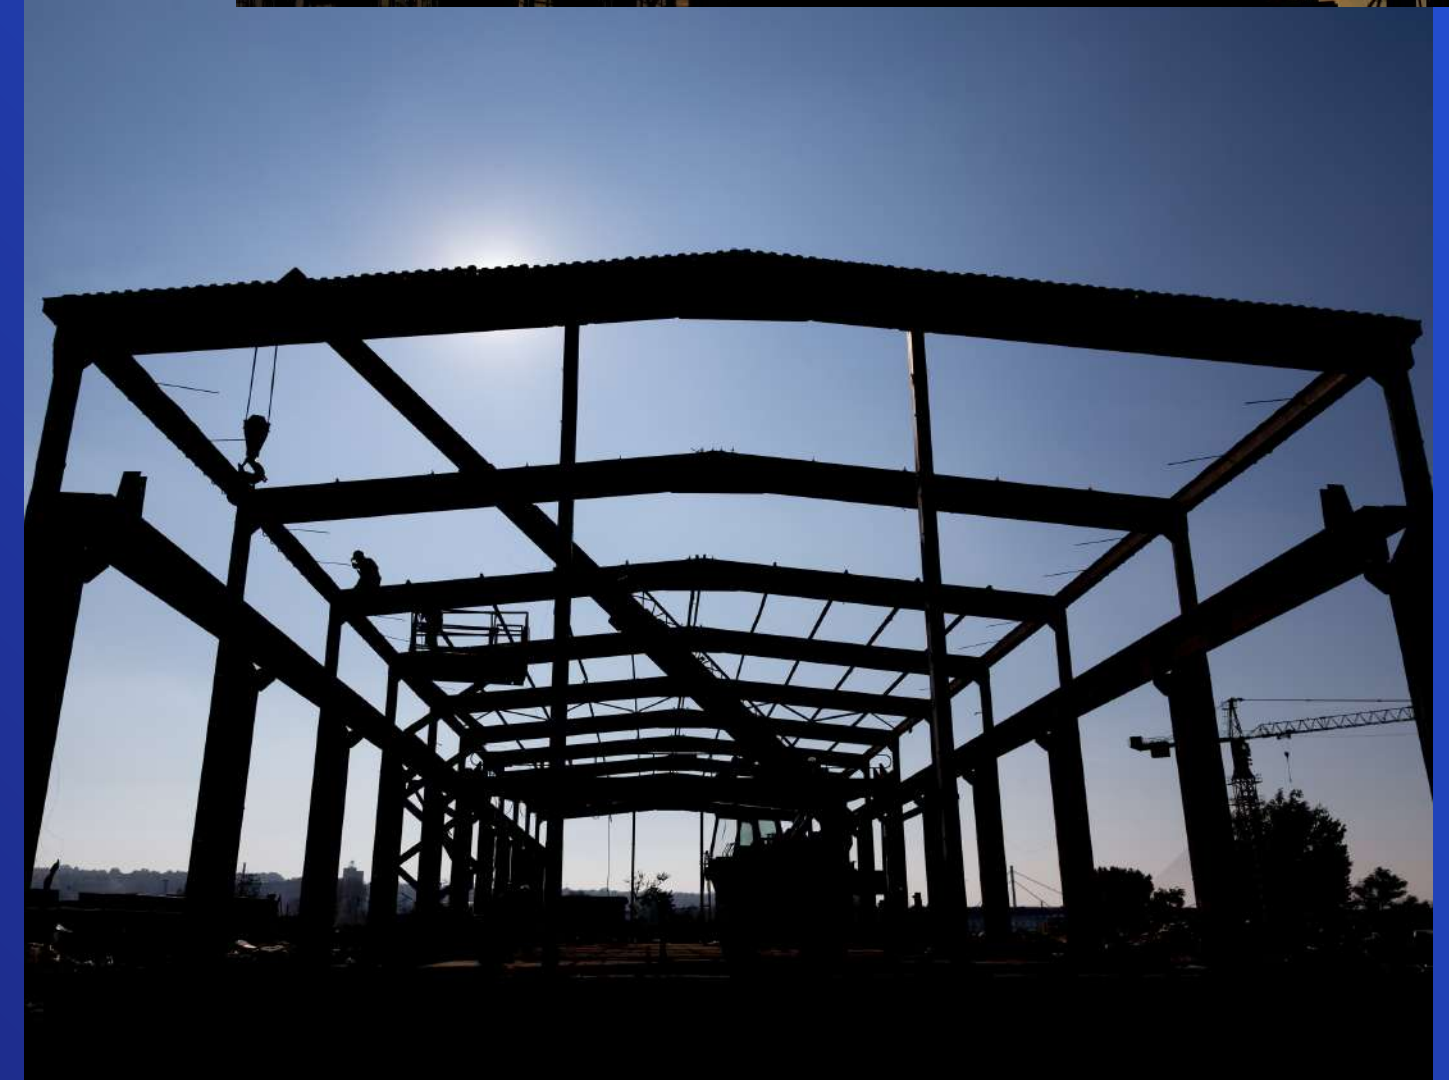

TESTING, COMMISSIONING & **HANDOVER**

Certified Performance. Delivered Ready to Operate.

Concept & Feasibility Studies

- Detailed engineering + IFC drawings
- Structural design & rebar detailing
- Hydraulic & hydrological modelling
- Geotechnical & pavement design
- BIM / 3D coordination & clash resolution
- Value engineering & constructability reviews

BUSINESS SEGMENTS

Specialized Expertise Across Multiple Sectors

1. HIGHWAYS, MOTORWAYS & URBAN MOBILITY

2. COMMERCIAL & RESIDENTIAL INFRASTRUCTURE

3. CANALS, DAMS & HYDROPOWER CIVIL STRUCTURES

BUSINESS SEGMENTS

Specialized Expertise Across Multiple Sectors

4. WATER TRANSMISSION & MUNICIPAL ENGINEERING

5. STEEL FABRICATION & PREFABRICATED BUILDINGS

6. RENEWABLE & SUSTAINABLE ENERGY

PROJECT GOVERNANCE & **CONTROLS**

Predictable Delivery Through Disciplined Governance

Key Pillars:

- Structured planning & scheduling (Primavera/MSP)
 - Cost & performance tracking
 - Risk & interface management
 - Digital QA/QC documentation
 - Technical compliance
 - Transparent reporting
- 

HSE & QUALITY LEADERSHIP

Zero Harm. Zero Compromise.

Core Practices:

- Safety-led supervision
- Toolbox talks & workforce training
- Hazard identification & mitigation
- Environmental & housekeeping controls
- ISO-aligned HSE + QA/QC systems
- Real-time monitoring & corrective actions

REGIONAL EXPANSION

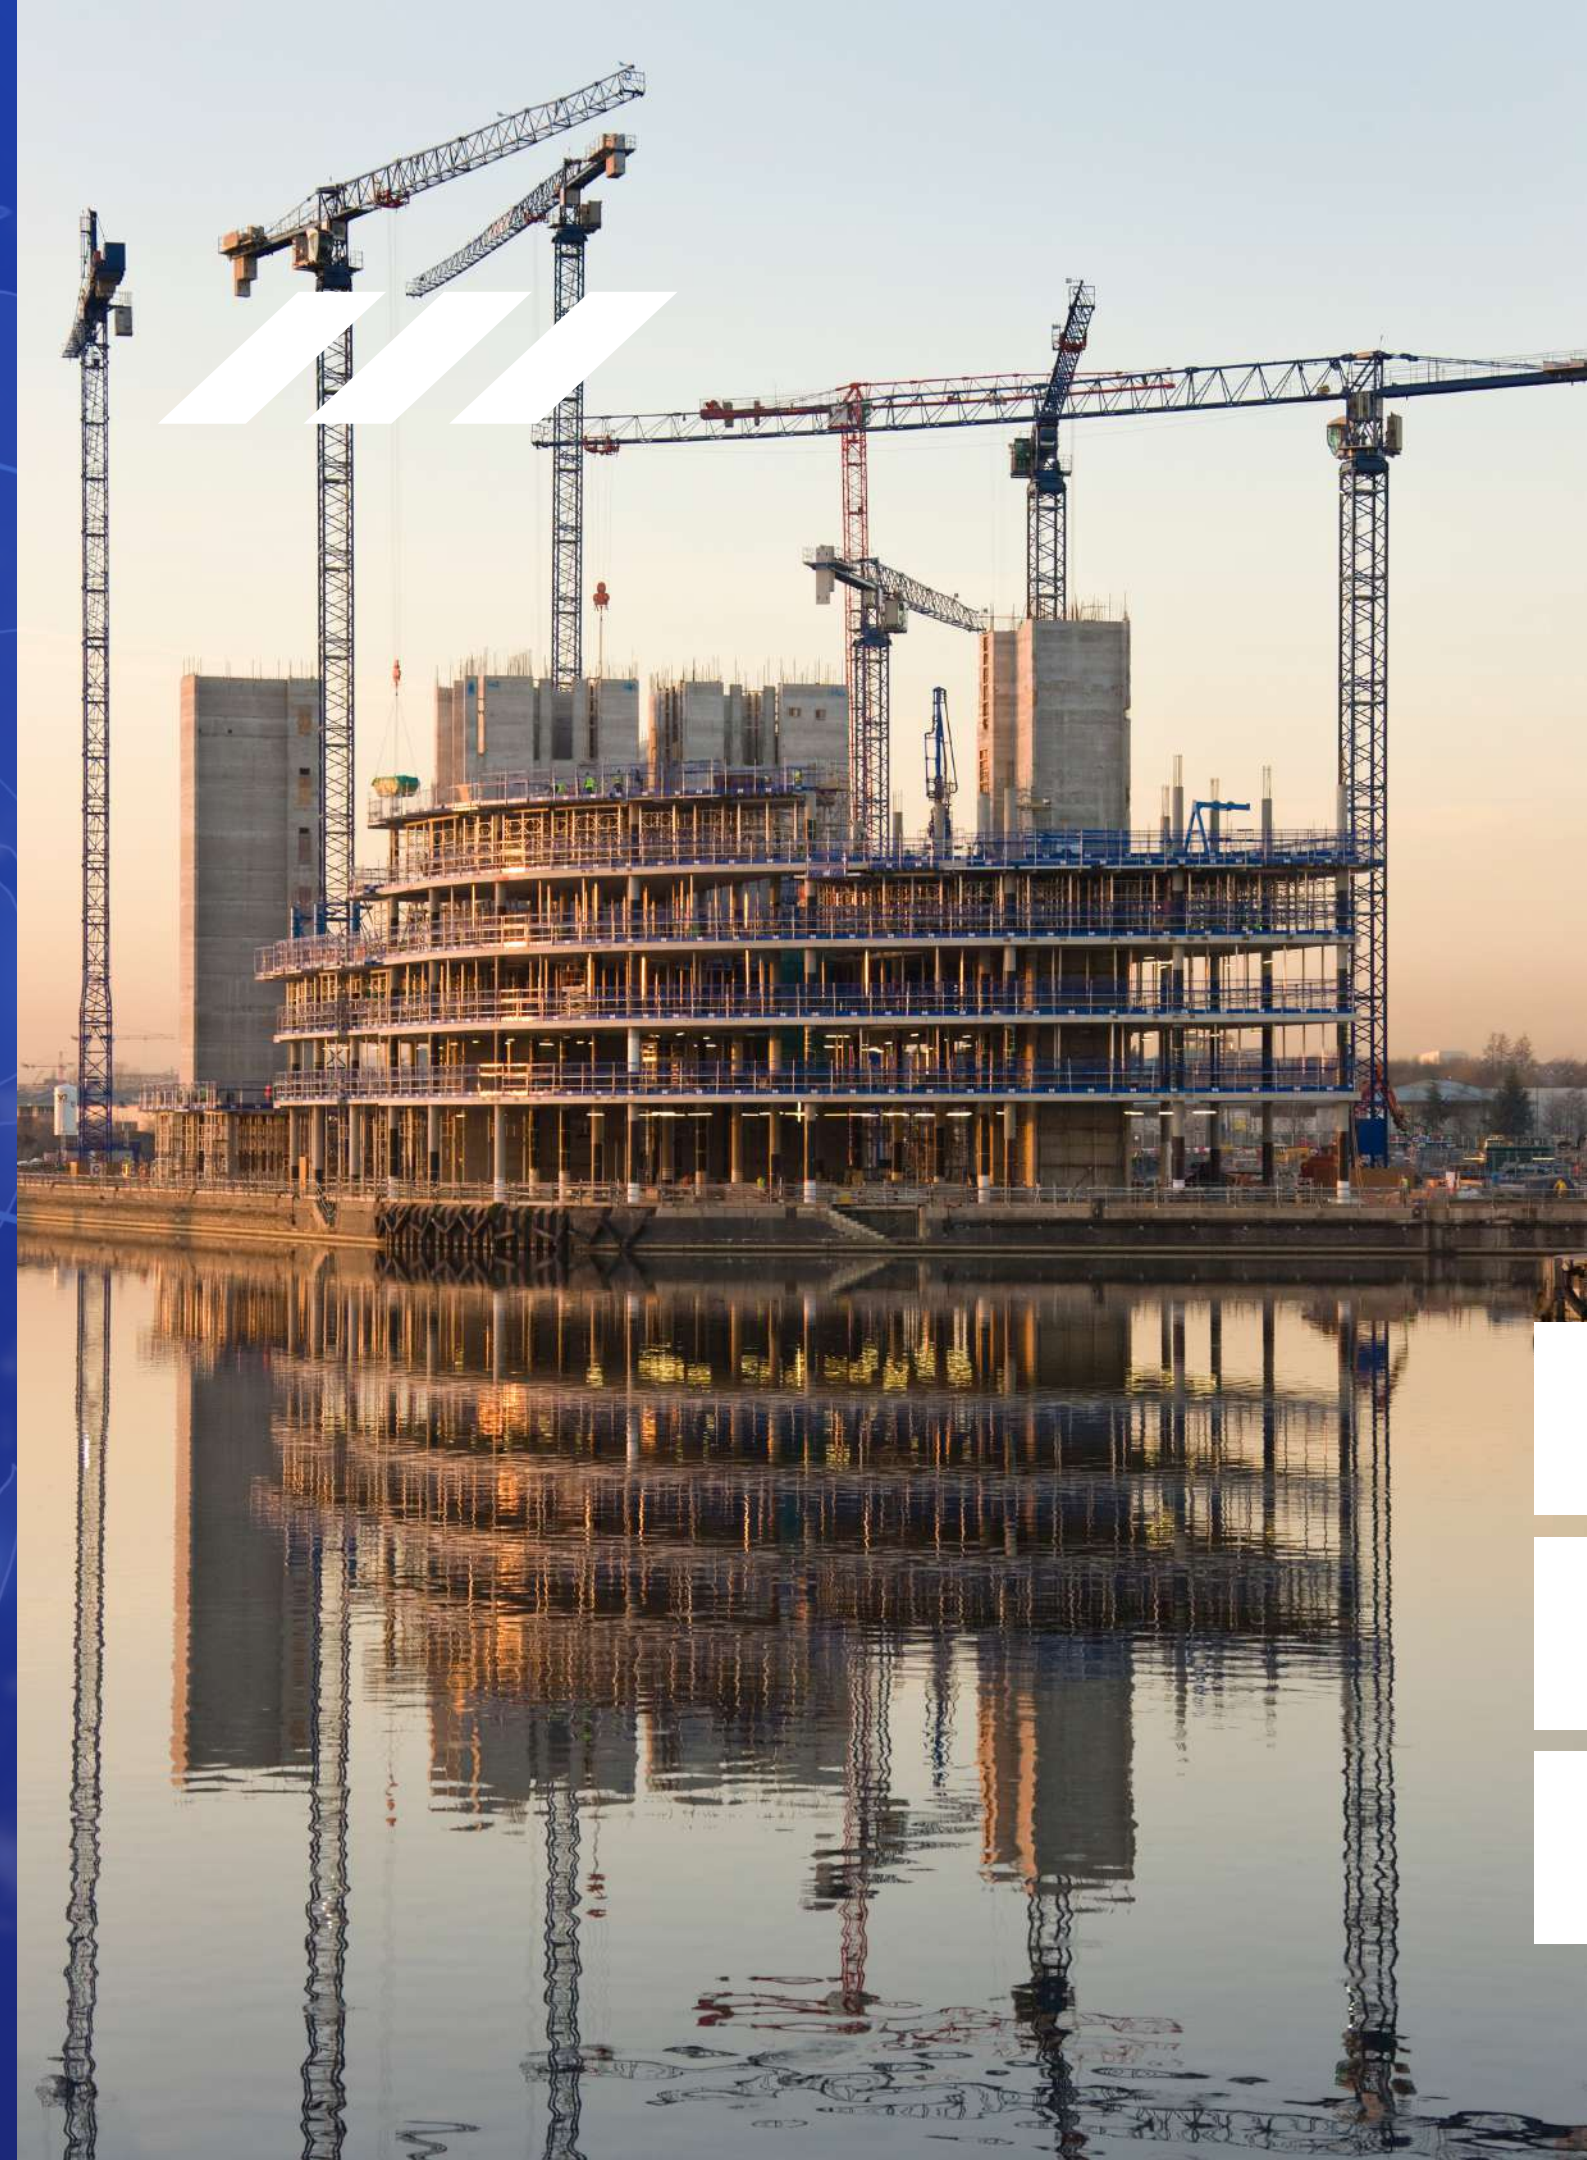

Scaling Regionally with Global Standards

Target Markets:

UAE, Saudi Arabia, Qatar, Oman, Kuwait, Bahrain, Kazakhstan, Uzbekistan, Tajikistan, Kyrgyzstan

Strengths Enabling Expansion:

1. In-house engineering
2. Regional vendor networks
3. Cross-border logistics
4. Scalable workforce
5. International EPC governance

CLIENTS WE HAVE **SERVED**

Trusted by Leading Public & Private Sector Institutions

SMS Constructions is proud to have delivered major civil, EPC, and infrastructure projects for some of Pakistan's most respected government authorities and private organizations. Our long-standing relationships reflect our commitment to quality, timely delivery, and engineering excellence.

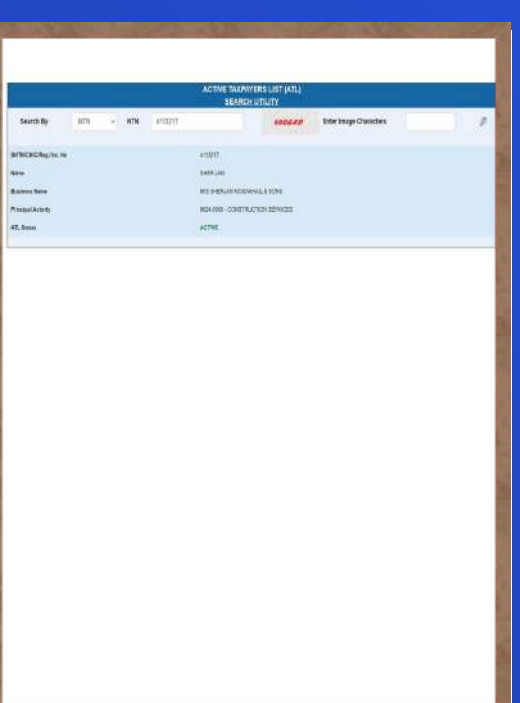

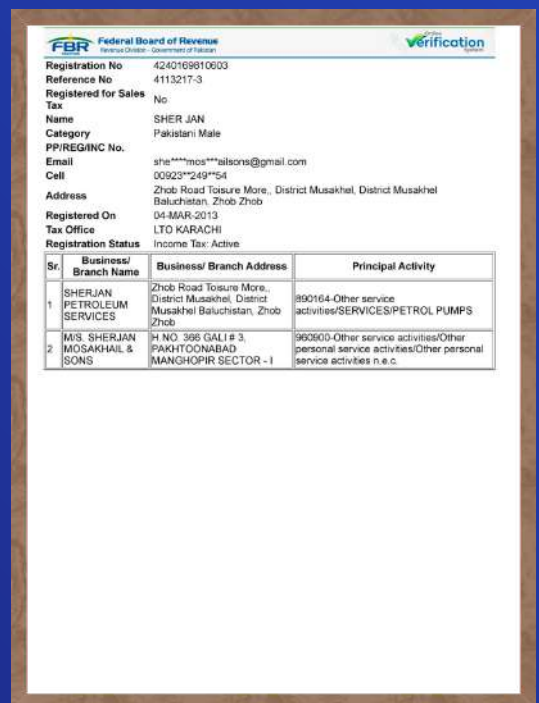

CERTIFICATIONS & COMPLIANCE

Globally Recognized Credentials & Compliance

SMS Construction upholds strict quality, safety, and compliance standards backed by ISO-certified systems. We are fully licensed and pre-qualified with major government and private bodies, demonstrating our proven capability to deliver large-scale, high-performance infrastructure with excellence.

WHY CHOOSE SMS

*A Partner You Can
Trust for Mission-Critical Delivery*

- Integrated EPC + Turnkey capability
- In-house engineering & design
- Proven record in heavy civil infrastructure
- Strict HSE & governance discipline
- Regional expansion readiness
- Single-point accountability
- Reliable, on-time, risk-controlled delivery
